**Subject:** Question on Sharing DEQ's Draft Outline on OR's Approach to Assessing, Targeting, and Addressing Landslide Prone Areas and Road Issues During Today's Call

Hi Gene,

No problem. I do not anticipate the meeting lasting more than 1 hour (although I have been wrong before).

Alan mentioned that Joshua Seeds has drafted an outline of DEQ's approach on assessing, targeting, and addressing landslide prone areas and road issues, including examples of methodologies and BMPs (as requested in the May 2010 letter from the federal agencies to DEQ and DLCD with focus on the answers to requests 3b and 3c of that letter). Are you ready to share your draft approach outline with EPA and NOAA during this call? If so, can you email the document to all of us?

Cheers,

Jayne Carlin, OR CZARA 6217 Coordinator

 code Nonresponsive

Thanks Jayne

I can participate from 1:00-2:00 but I have a Klamath conference call that begins at 2:00 that I should participate.

cheers

Gene

CZARA 2617 SA Commitments: Forestry & New Development

Friday March 2 (1 PM PST or 4 PM DC)

Call In Number **Nonresponsive**

#### Agenda

Status of Action Items from December 5 Call

Discussion on Oregon's approach for updating existing TMDL Implementation Plans to incorporate new guidance.

What to Cover During Monday's Managers' Meeting (brainstorm issues, highlights, alerts or upcoming decisions to be made by managers)

Action Items

#### Action Items from December 5 Call

Forestry Remaining Condition Accomplishments and Approach (Gene Foster, DEQ & David Powers, EPA R10)

Revised Approach: Develop Implementation Ready TMDLs AND White Paper describing Oregon's proposed approach to assessing, targeting, and addressing landslide prone areas and road issues, including examples of methodologies and BMPs.

Action Item: Joshua Seeds, DEQ, will distribute the outline of the White Paper by the end of January

New Development Accomplishments/Approach and Status (Gene Foster, DEQ & Don Waye, EPA HQ)

DEQ is reviewing and addressing EPA/NOAA comments on the draft TMDL Implementation Guidelines for the Coastal Nonpoint Program management area that incorporate the new development management measure requirements or practices.

Action Item: Gene Foster, DEQ, will distribute the revised draft TMDL Implementation Guidelines within the next few months.

#### Update on New Development from Gene

Revised draft TMDL Implementation Guidelines for the Coastal Nonpoint Program management area that incorporate the new development management measure requirements or practices.

Draft strategy for updating existing TMDL Implementation Plans to incorporate new guidance.

We are continuing to work on the Guidance document for urban DMAs in the CNPCP. Benjamin Benninghoff (MS4 Stormwater Permit Coordinator) has been helping us with the document. We have a revision, but it probably needs some finalizing before releasing for the next review. I think it is in much better shape than the previous draft and as soon as I finish

my review of the edits it should be ready for your review.

As far as our strategy for updating existing TDML IPs in the CNPCP, we do not have a proposal drafted, but I would think as we develop IR-TMDLs in the CNPCP we will be getting revised TMDL IPs from the urban DMAs or have the requirements in the TMDL/WQMP.
